

Automotive Interior Fabric Swatches

Layered, multi-colored fabric samples feature a distinct zig-zag or scalloped edge. The textured material includes shades of yellow, red, orange, and light blue, ideal for automotive interior design or upholstery.

Product Overview

Premium Automotive Interior Fabric Swatches

This collection of automotive interior fabric swatches provides a comprehensive selection of textures and colors for upholstery and interior design applications. Designed for professional use, these samples allow for precise material assessment and color matching during the customization or maintenance process. The durable, woven fabric construction ensures that these swatches accurately represent the quality and feel of the final interior finish.
