

Automotive Internal Combustion Engine

This is a high-performance auto engine equipped with a carburetor and starter motor. Its compact design ensures efficient power delivery for various automotive uses.

Product Overview

High-Performance Automotive Engine

This automotive internal combustion engine is engineered for efficiency and reliability in various automotive applications. Featuring a robust silver engine block and a sleek black engine cover, the unit is designed for optimal performance. It comes fully equipped with essential components including a carburetor and starter motor, making it a ready-to-integrate power solution.

Technical Specifications

Included Components

- Carburetor
- Starter Motor
- Engine Cover

Engine Type	Internal Combustion
