

Automotive Oil Service Reset Tool

This tool is designed to reset oil service lights, oil inspection lights, service mileage and service intervals on a wide range of vehicles. It also resets airbag systems on most major Asian, American, and European vehicles.

Product Overview

Professional Oil Service Reset Tool

The U691 is a professional-grade automotive diagnostic tool specifically engineered to reset oil service lights, inspection lights, and airbag maintenance indicators. Designed for broad compatibility, it supports a wide range of Asian, American, and European vehicle brands. With its intuitive handheld interface and direct OBDII connectivity, it provides an efficient and cost-effective solution for automotive workshops to manage service intervals and maintenance workflows.
