

# Automotive Omni-Directional Antenna

This automotive antenna provides 360° omni-directional reception without needing adjustments. It is suitable for indoor and outdoor use in cars, during camping, and on marine vehicles.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Omni-Directional Antenna

This automotive omni-directional antenna is designed for seamless 360° signal reception, eliminating the need for manual adjustments. Built for versatility, it is suitable for indoor and outdoor environments, making it an ideal choice for cars, camping, and marine applications. With its integrated wide-band amplifier and weather-resistant construction, it ensures reliable Full HD and digital TV signal reception even in challenging conditions.

## Key Features

### Core Features

360° Omni-Directional, Weather Resistant, Waterproof, UV Protected, Anti-Rust, Wide-Band Amplifier

## Performance Metrics

### Performance Metrics

**115 dBuV**

Output Level

**3.5 dB**

Noise Figure

**75 ©**

Impedance

## Technical Specifications

### Frequency Range

Band	Frequency
VHF	174-216 MHz
UHF	470-862 MHz

### VSWR Ratings

- VHF: <3.0
- UHF: <2.5

## Power & Installation

### Powering Options

Digital Receiver Power • AC/DC Adaptor • 12V/24V In-Car Charge

### Working Voltage

DC 5V 550mA
