

Automotive Paste Wax for Surface Polishing

This paste wax is designed to provide a durable and long-lasting shine to automotive surfaces. The advanced formula effectively removes minor imperfections, oxidation, and swirl marks, leaving a smooth and glossy finish.

Product Overview

High-Performance Surface Restoration

This Super Duty Paste Compound is a specialized wax formulated to deliver a durable, long-lasting shine to various automotive surfaces. Its advanced formula is engineered to effectively remove minor imperfections, oxidation, and swirl marks, resulting in a smooth, glossy finish. Designed for both professional detailers and DIY enthusiasts, it provides a robust protective barrier against UV rays, water spots, and environmental contaminants.

Model Number

MA-11598

Application & Usage

Application Instructions

- Apply a small amount of paste on the surface
- Rub firmly on the film or object

Key Features

Suitable For

Cars • Trucks • Automotive Paint

Benefits

UV Protection, Removes Swirl Marks, Removes Oxidation, Water Spot Resistance, Enhanced Depth & Clarity
