

# Automotive Plastic Bumper with Hinged Cover

This is a plastic bumper designed for automotive use. It has a hinged cover that provides access to an internal compartment.

## Product Overview

### Automotive Plastic Bumper Component

This automotive bumper component is designed as a high-quality, interchangeable alternative for specific vehicle models. Featuring a durable plastic construction, it includes a functional hinged cover and integrated mounting points for seamless installation. It is built to provide both impact protection and aesthetic alignment with the vehicle's bodywork.

## Compatibility & Reference

### Part Status

Interchangeable • Non-Original

### Reference Numbers

6418806270, 6418806370

## Physical Properties

### Key Features

- Hinged cover mechanism
- Integrated mounting points
- Recessed design

### Material

Durable Automotive Plastic
