

Automotive Rear Bumper (2003-2008)

This rear bumper is designed to fit vehicles from 2003 to 2008. It provides protection to the rear of the vehicle in the event of a collision and integrates seamlessly with the vehicle's design.

Product Overview

Automotive Rear Bumper (2003-2008)

This durable, impact-resistant rear bumper is precision-engineered to fit vehicles manufactured between 2003 and 2008. Designed as a seamless OEM-compatible replacement, it maintains the original vehicle aesthetics while providing essential protection. With pre-drilled mounting points for an easy and secure installation, this component offers a cost-effective solution for collision repair or vehicle customization.
