

Automotive Rear Shock Absorber

This rear shock absorber has a 10.1mm mounting hole underneath and a 12.1mm mounting hole. It has a center distance of 335 ± 2.0 .

Product Overview

High-Performance Rear Shock Absorber

This rear shock absorber is engineered to deliver superior vehicle stability and ride comfort across various automotive applications. Featuring a robust construction with a chrome-finished cylinder and a red-anodized end cap, it ensures durability and consistent performance. The integrated coil spring provides optimal damping and shock absorption for a smoother driving experience.

Technical Specifications

Part Number	CD463
Features	Chrome-finished cylinder, Red-anodized end cap, Coil spring integrated
Compatibility	Various automotive applications
