

Automotive Shock Absorber

This high-performance shock absorber features a blue coil spring and silver-finished metal components. It is designed for optimal damping and ride comfort, providing enhanced stability and control.

Product Overview

High-Performance Automotive Suspension

This high-performance shock absorber is engineered to provide superior damping and enhanced ride comfort for a variety of automotive applications. Featuring a durable blue coil spring paired with precision-finished silver metal components, it is built to deliver optimal stability and handling. This unit is an ideal solution for upgrading current suspension systems or replacing worn-out components to ensure a smoother, more controlled driving experience.

Technical Features

Key Performance Attributes

1 Damping

Design Focus

1 Robust

Build Quality

Construction Materials

- High-tensile steel coil spring
- Corrosion-resistant silver metal housing

Application Compatibility

Automotive Suspension, Performance Upgrade, Replacement Part

Compliance and Standards

Key Benefits

Enhanced Stability • Improved Control • Long-Lasting Durability
