

Automotive Shock Absorber

This high-performance shock absorber is designed for optimal vehicle stability and ride comfort. It features precision engineering and advanced damping technology for superior handling and control.

Product Overview

High-Performance Automotive Suspension

This automotive shock absorber is engineered for superior handling, vehicle stability, and passenger comfort. Utilizing advanced damping technology, the unit provides precise control across various road conditions. Built with durable materials, it serves as a reliable suspension component designed for longevity and demanding automotive applications.

Compatibility

Part Reference

C2 92

Compatible Vehicle Model

PEUGEOT

Features

Key Performance Features

- Advanced damping technology
- Optimal vehicle stability
- Superior handling and control
- Durable heavy-duty construction
