

Automotive Shock Absorber for Lada Vehicles

This shock absorber is designed for Lada models 2108, 2109, 21099, 110, 112, 1119, and 1118. It minimizes bouncing and enhances handling for a comfortable ride.

Product Overview

High-Performance Suspension Solution

This shock absorber is engineered to deliver superior ride comfort and handling stability for a wide range of Lada vehicles. By effectively dampening vibrations and controlling spring movement, it significantly reduces vehicle bouncing and body roll. Designed to meet or exceed OEM standards, this component ensures long-lasting durability and reliable performance for your suspension system.

Compatibility

Compatible Lada Models	2108, 2109, 21099, 110, 112, 1119, 1118
