

Automotive Side View Mirror

This side view mirror provides rear visibility for safe driving and lane changes. Constructed with durable materials to withstand weather conditions and road vibrations.

Product Overview

Automotive Side View Mirror

This side view mirror is engineered specifically for vehicles manufactured between 2003 and 2008, ensuring precise fitment and compatibility. It is designed to enhance driver safety by providing clear rear visibility for lane changes and general road awareness. Built with durable materials, the unit is constructed to withstand harsh weather conditions and continuous road vibrations, ensuring long-term reliability.

Technical Details

Factory Code	wt-27-d-103
Compatibility Range	2003 - 2008

Features

Key Features

- Optimized for 2003-2008 vehicle models
- Durable construction for weather resistance
- High-clarity reflective surface
- Includes mounting hardware

Installation

Easy Installation • Mounting Hardware Included
