Product Overview

High-Performance Automotive Control Arm

This automotive suspension control arm is precision-engineered to provide optimal steering and suspension performance for compatible Audi and VW vehicles. Manufactured from a durable combination of aluminum and rubber, this component ensures precise handling, vehicle stability, and a smoother driving experience. Designed as a direct replacement for original equipment, it meets stringent standards for fit, form, and function, offering long-lasting reliability and wear resistance.

Technical Specifications

OEM Reference Numbers

- 4D0407151P
- 4D0407151J
- 4D0407151C
- 4D0407151G
- 4D0407151H

Compatible Brands

Audi, VW

Material

Aluminum and rubber
