

Automotive Transmission Fluid Reservoir

This tank is suitable for various automotive applications, including transmission systems. Its robust construction ensures durability and reliability in demanding environments.

Product Overview

Automotive Transmission Fluid Reservoir

This robust automotive transmission fluid reservoir is designed for durability and reliable performance in demanding automotive environments. It features a distinct square design with a secure silver cap for easy maintenance and fluid access. Equipped with an integrated mounting bracket, this reservoir ensures stable installation and secure attachment to the vehicle frame or chassis.

Design and Build

Color	Red
Mounting Configuration	Side bracket with mounting holes
Cap Style	Silver screw-top cap

Application

Primary Application	Automotive, Transmission Systems
