

# Automotive Turbocharger

This automotive turbocharger enhances engine power and efficiency. Its robust design ensures durability and reliable operation under demanding conditions.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Automotive Turbocharger

This high-performance turbocharger is engineered to significantly enhance engine power and efficiency. Featuring a robust construction, it is designed for reliable operation under demanding automotive conditions. Its precision-engineered compressor wheel and optimized flow paths ensure improved boost response and reduced turbo lag, making it an ideal choice for professional applications.

## Technical Details

### Key Performance Metrics

**4010487**

Model ID

### Core Features

- Robust turbine housing
- Precision-engineered compressor wheel
- Optimized flow paths
- Increased airflow and boost pressure

## Specifications Labels

### Designation Codes

Effbe+C2, 4010487A, 5-5-5 HUT >EAM
