

# Automotive Turbocharger

This turbocharger increases engine power and efficiency. It is engineered for optimal performance and durability with high-quality materials.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Turbocharging Solutions

This premium-grade turbocharger and cartridge unit is engineered to significantly enhance engine power and operational efficiency. Designed with robust materials to withstand rigorous operating conditions, it provides reliable performance and optimal airflow. Suitable for a wide range of automotive engine applications, this component is built to meet high-standard quality requirements for demanding commercial and private use.

## Key Features

### Performance Attributes

Increased Engine Power, Improved Fuel Efficiency, High-Durability Construction, Optimal Boost Pressure

## Logistics

### Shipping Lead Times

**72 hours**

Standard Delivery

**5 days**

Custom Order Lead Time

## Compatibility

### Supported Engine Series

- Toyota (Hiace, Hilux, 4Y, 2L, 3L, 5L, 1HZ, 1KD, 2KD, 2TR, 2C, 3C, 1RZ, 2RZ, 3RZ, 1AZ, 2AZ)
- Isuzu (NPR, NKR, D-MAX, 4JA1, 4JB1, 4HF1, 4HE1T, 4BD1, 6BD1)
- Nissan (D21, YD25, KA24, QD32, TD25, TD27)
- Mitsubishi (4D56, 4M40T, 4JG2, 4D30, 4D34, 4G63, 4G64)
- Suzuki (F10A, F8A, F8B, G13B, G16A, G16B)
- Cummins (4BT, 6BT, 6CT)
- Deutz (F2L, 3L, 4L, 6L, 912, 913)

## Service Commitment

### Quality Assurance

OEM Quality Standards • Guaranteed Performance • Flexible Order Quantities
