Product Overview

High-Performance Automotive V-Belt

The RECMF-8370 automotive V-belt is precision-engineered to deliver optimal power transmission and superior durability in demanding automotive applications. Designed to meet or exceed OEM specifications, this belt provides excellent resistance to heat, oil, and abrasion for an extended service life. It is an ideal solution for professionals seeking reliable, quiet, and efficient performance across a wide range of vehicle makes and models.

Technical Specifications

Key Performance Attributes

- Optimized power transmission
- Reduced slippage
- High heat resistance
- Oil and abrasion resistance
- Quiet operation

Model Number

RECMF-8370

Compliance and Quality

Quality Assurance

OEM Compliant • International Accreditation

Certifications

ISO/TS 16949, CNAS, IAF, TSE
