

Automotive Wheel Balancer

This wheel balancer is designed for automotive maintenance and repair shops. It operates on either 100-120V AC or 200-240V AC power at 50/60Hz.

Overview

Professional Wheel Balancing Solution

This high-performance wheel balancer is engineered for automotive maintenance and repair workshops. It ensures optimal vehicle safety and handling by precisely correcting weight imbalances in wheel assemblies. Compatible with global power standards, it offers versatile installation for diverse workshop environments.

Technical Specifications

Power Compatibility

50 Hz

Min Frequency

60 Hz

Max Frequency

Model Identification

SBM 994

Power Voltage Input

100-120V AC, 200-240V AC

Operating Frequency

60 Hz
