

Automotive Wheel Hub Bearing Assembly

This wheel hub bearing assembly is engineered for smooth rotation and reduced friction. The hub is constructed from high-strength steel and includes an integrated ABS sensor for accurate wheel speed monitoring and braking system functionality.

Product Overview

High-Performance Wheel Hub Assembly

This wheel hub bearing assembly is engineered for optimal performance, smooth rotation, and reduced friction. Constructed from high-strength steel, the unit provides reliable support and long-lasting durability for demanding driving conditions. Each assembly includes an integrated ABS sensor to ensure accurate wheel speed monitoring and consistent braking system functionality, offering a direct-fit solution for easy installation.

Compatibility

Supported Vehicle Models

- BUICK RAINIER (2004-2007)
- CHEVROLET SSR
- CHEVROLET TRAILBLAZER (2003-2009)
- GMC ENVOY (2002-2009)
- ISUZU ASCENDER (2003-2008)
- OLDSMOBILE BRAVADA (2002-2004)
- SAAB 9-7X (2005-2009)

Key Features

Core Features

Integrated ABS Sensor, Precision-Engineered Bearing, High-Strength Steel Construction, Direct-Fit Design
