Product Overview

Professional Grade Aviation Snips

These aviation snips are engineered for precision and durability in demanding metalworking environments. Featuring drop-forged high-quality carbon steel blades, the tool ensures exceptional cutting performance and longevity. The body undergoes specialized heat treatment, while the cutting edges are induction quenched to maintain sharpness and resist wear during heavy-duty use.

Technical Specifications

Blade Material	High-quality carbon steel
Manufacturing Process	Drop forged, Heat treated body, Induction quenched edges

Applications

Compatible Materials

- Sheet metal
- Aluminum
- Vinyl siding
- Copper
- Cardboard
- Leather
- Screening

Recommended Industries

HVAC • Roofing • Construction • Metalworking
