

# Aviation Snips for Sheet Metal Cutting

These aviation snips are designed for cutting sheet metal, aluminum, vinyl siding, and other materials. They feature high-leverage handles, forged alloy steel blades, and ergonomic grips for increased cutting power, durability, and comfortable use.

## Product Overview

### Heavy-Duty Aviation Snips

These heavy-duty aviation snips are precision-engineered for cutting sheet metal, aluminum, and vinyl siding with ease. Featuring forged alloy steel blades, these tools offer exceptional durability and longevity for professional metalworking, HVAC, and roofing applications. The high-leverage handle design provides increased cutting power, while the ergonomic grips ensure comfort during extended periods of use.

## Technical Specifications

Blade Material	Forged alloy steel
Applications	Sheet Metal, Aluminum, Vinyl Siding, HVAC, Roofing, Metalworking

## Key Features

### Performance Highlights

**1 High-Leverage**  
Cutting Efficiency

Ergonomic Design	Yes
Leverage Mechanism	High-leverage handles for increased cutting power
