

# Axial Fan for Ventilation Equipment

This three-bladed axial fan is designed for air conditioning and ventilation equipment. Constructed from durable metal, it features a central hub for secure attachment to a motor shaft.

## Product Overview

### High-Efficiency Axial Fan

This three-bladed axial fan is engineered specifically for integration into air conditioning and ventilation equipment. Constructed from robust, durable metal, it ensures reliable performance and longevity in demanding environments. The central hub design allows for secure mounting to a motor shaft, making it an ideal component for professional electric fan and exhaust system assemblies.

## Technical Specifications

Number of Blades	3
Material	Durable Metal
Mounting Method	Central hub motor shaft attachment

## Applications

Primary Applications	Air Conditioning, Ventilation Equipment, Exhaust Systems, Electric Fans
