

Axial Flow Industrial Exhaust Fan

Axial flow industrial exhaust fan designed for ventilation applications. It features aerodynamically optimized blades and a square frame for easy mounting.

Product Overview

High-Efficiency Ventilation Solution

This axial flow industrial exhaust fan is engineered specifically for demanding ventilation applications in industrial and commercial environments. Featuring a robust construction with a square frame, it is designed for easy mounting and long-term reliability. The unit is equipped with aerodynamically optimized blades that ensure efficient airflow and effective air extraction, making it an ideal choice for maintaining air quality in workspaces.

Technical Specifications

Product Type	Axial Flow Industrial Exhaust Fan
Suitable Environments	Industrial, Commercial, Ventilation

Design Features

Blade Color	Red
Frame Shape	Square
Blade Design	Aerodynamically optimized
