Overview

High-Performance Sky Dancer Ventilation

This axial ventilator is engineered specifically for inflating and maintaining sky dancers, air dancers, and inflatable tube men. Built with a robust aluminum alloy motor and die-cast blades, it offers superior performance with strong suction and high air volume. Its portable, dual-purpose design with an adjustable U-stand makes it an ideal solution for exhibitions, celebrations, and promotional events.

Technical Specifications

Size	300 mm
Voltage	220V-240V
Frequency	50 Hz
Color	Black

Features & Construction

Design Features

- Model U Elevation Adjusting (up to 145°)
- Press Button Switch
- Removable U-stand for dual-purpose use
- Low noise operation
- Lightweight construction

Materials	Aluminum Alloy Motor, Die-cast Aluminum Blade, Galvanized Steel Body
