

B15 Lamp Gauge for IEC60061 Standard

This lamp gauge is designed for IEC60061 and IEC60968 B15 lamp testing. It is made from hardened steel and comes with a one-year warranty.

Product Overview

Precision IEC60061 Lamp Gauges

This comprehensive series of lamp gauges is designed for strict adherence to IEC60061 and IEC60968 standards. Engineered for precision, these tools are essential for quality control in lamp manufacturing and laboratory testing environments. The collection includes specific gauges for B15, E26, E27, E39, and E40 lamp bases, ensuring accurate dimensional verification across a wide range of lighting components.

Standards & Compliance

Applicable Standards	IEC60061, IEC60968, IEC60061-3
----------------------	--------------------------------

Gauge Types

Supported Lamp Bases

- B15
- E26
- E27
- E39
- E40
