

Back Mount Pressure Gauge with Plastic Case

This pressure gauge features a back mount configuration. The gauge is encased in a durable plastic housing and measures pressure up to 16 bar.

Product Overview

Reliable Pressure Monitoring Solution

This back mount pressure gauge is designed for clear and accurate pressure monitoring in industrial applications. Featuring a durable plastic case and a high-visibility dial, it provides dependable readings up to 16 bar. Its compact design and back-mounting configuration make it an ideal choice for panel integration and equipment monitoring.
