

Backpack Power Blower

This high-powered blower is designed for landscaping or industrial applications. It features a robust engine and backpack-style harness for comfortable and efficient operation.

Product Overview

Professional Backpack Power Blower

This high-performance backpack power blower is engineered for demanding landscaping and industrial cleaning tasks. Featuring a robust engine design and an ergonomic harness system, it provides the power needed for efficient air displacement while ensuring operator comfort during extended use. The large-diameter output nozzle is optimized for maximum airflow, making it a reliable solution for heavy-duty debris clearance.

Technical Specifications

Nozzle Diameter	33 mm
-----------------	-------

Compliance & Standards

Certifications	EMC, Euro II, EPA
