

Bagged Canister Vacuum Cleaner with HEPA Filter

This vacuum cleaner features a cyclone style filtration system and a durable stainless steel cover. It is equipped with a HEPA filter, full bag indicator, automatic cord rewinder, pedal on/off switch, and speed control.

Product Overview

Professional Performance

The BST-815 canister vacuum cleaner is engineered for high-efficiency cleaning tasks. Featuring a robust stainless steel exterior, this unit combines durability with an advanced cyclone filtration system to ensure consistent suction power. Equipped with a high-performance HEPA filter, it is designed to maintain indoor air quality while providing professional-grade results for demanding environments.
