

Bagless Canister Vacuum Cleaner with Cyclonic Filtration

This bagless canister vacuum cleaner features a cyclonic filtration system and a washable HEPA filter. The transparent dust cup allows easy monitoring, and the automatic cord rewinding function enhances convenience.

Product Overview

High-Efficiency Cyclonic Cleaning

This bagless canister vacuum cleaner utilizes a professional-grade cyclonic filtration system to ensure consistent suction power throughout your cleaning tasks. Designed for versatility and ease of use, it features a washable HEPA filter and a convenient transparent dust cup for quick monitoring. Its compact, lightweight construction combined with stepless speed control makes it an ideal solution for efficient and flexible home maintenance.
