Overview

High-Efficiency Cyclonic Cleaning

The HS-310 is a compact, bagless cyclonic vacuum cleaner designed for powerful suction and efficient dust separation. Utilizing a multi-system cyclone technology, it effectively captures small dust particles while maintaining consistent airflow. With its lightweight design, washable filtration system, and versatile attachments, it offers a reliable and low-maintenance cleaning solution for diverse surfaces.

Performance

Rated Power

700 W

Minimum Power

1000 W

Maximum Power

Vacuum Pressure

14 kPa

Technical Specifications

Rated Voltage	220-240V, 50/60Hz
Dust Cup Capacity	2 L
Net Weight	3.5 kg
Hose Length	1 m
Cord Length	3 m
