Overview

High-Performance Cleaning Technology

This bagless cylinder vacuum cleaner is engineered for efficient home maintenance, featuring advanced cyclone structure tank technology for superior dirt separation. Designed with both power and convenience in mind, it includes a large-capacity dust container and a versatile motor range to tackle various cleaning tasks. Its ergonomic build ensures smooth maneuverability and consistent suction performance for professional-grade cleaning results.

Technical Specifications

Motor Power Range

700 W

Minimum Power

1600 W

Maximum Power

Power Cord Length

8 M

Filtration System

Cyclone Filtration, Multi-stage Filtration, HEPA Filter

Design & Features

Key Design Features

- Bagless cyclone structure tank
- Transparent dust container for fill monitoring
- Top-mounted ergonomic handle
- Large wheels for smooth maneuverability
- Variable suction power control

Noise Level

Low Noise
