

Bagless Cylinder Vacuum Cleaner

This bagless cylinder vacuum cleaner provides powerful suction using a cyclonic filtration system. It is equipped with multi-surface cleaning capabilities and an adjustable telescopic wand for convenient and efficient cleaning.

Overview

Professional Grade Bagless Performance

This high-performance bagless cylinder vacuum cleaner combines powerful suction with an efficient 3L dust capacity to ensure thorough cleaning across multiple surfaces. Engineered for operator convenience, it features a 3-point steering system with rubberized wheels and a range of user-friendly controls like automatic cord rewinding and one-touch dust bin emptying. Designed to meet international safety and performance standards, it is an ideal solution for reliable, heavy-duty cleaning environments.

Technical Specifications

Power Range

2200 W

Maximum Power

700 W

Minimum Power

Voltage	120V / 220-240V, 50/60Hz
Dust Capacity	3 L
Cord Length	5M - 8M

Design & Convenience

Comfort & Utility

- Speed control
- Practical carrying handle
- Pedal button
- Automatic cord rewinder
- One-touch dust container emptying
- 3-point steering with rubberized wheels
- Vertical storage/parking aid
