

Bagless Cylinder Vacuum Cleaner with Dual Cyclone

This cylinder vacuum cleaner utilizes dual cyclone technology for effective cleaning. Its compact and lightweight design includes a transparent dust container and washable filter.

Product Overview

High-Efficiency Cleaning Performance

This bagless cylinder vacuum cleaner utilizes advanced dual cyclone technology to deliver powerful suction while maintaining a compact, lightweight form factor. Designed for convenience and ease of use, it features a one-touch dust emptying system, an automatic cord rewinder, and adjustable speed controls to suit various cleaning needs. Its durable construction, ergonomic design, and washable filter make it a reliable and low-maintenance solution for professional cleaning environments.
