

Bagless Upright Vacuum Cleaner

This upright vacuum cleaner features a bagless design and a transparent dust container. It is equipped with a HEPA filter and a powerful motor.

Overview

High-Efficiency Bagless Cleaning

This upright vacuum cleaner is engineered for superior suction performance using a powerful motor to handle daily cleaning tasks with ease. Its bagless, transparent dust container eliminates the need for replacement bags and provides real-time visibility into debris accumulation. Designed for convenience, the compact and lightweight build is complemented by a HEPA filtration system that ensures effective allergen removal for cleaner indoor air.
