

Bagless Vacuum Cleaner with HEPA Filter

This vacuum cleaner is a compact and powerful appliance designed for efficient dirt and dust removal. It features a bagless design with a transparent dust container and a HEPA filter.

Product Overview

Professional Cleaning Solution

The JC802 is a compact and powerful bagless vacuum cleaner engineered for efficient dust and debris removal. It utilizes advanced cyclonic action to provide strong, consistent suction performance across various floor types. With its integrated HEPA filtration system, it effectively captures fine particles, making it an ideal choice for maintaining a hygienic environment.
