Product Overview

Professional Ball End Hex Key Set

This professional-grade hex key set features an extra-long, ball-point design, allowing for efficient operation at various angles in tight or difficult-to-reach spaces. Constructed from high-quality S2 material with a durable matte chrome plating, each tool is heat-treated to ensure exceptional hardness and wear resistance. The set comes organized in a convenient folding plastic holder, making it an essential tool for automotive, mechanical, and general repair applications.
