

Ballast Compatible LED Light

This ballast compatible LED light is engineered as a replacement for traditional lighting. It features robust construction and efficient LED technology for energy savings and a long lifespan.

Product Overview

Energy-Efficient Lighting Upgrade

This ballast-compatible LED light serves as a direct, high-performance replacement for traditional lighting systems. Designed for rapid deployment, it allows for seamless installation into existing infrastructures in just over a minute. The technology provides immediate full brightness without warm-up time, delivering reliable illumination for industrial and commercial environments.

Performance Metrics

Rated Lifetime

50000 Hr
Lifespan

Color Rendering Index (CRI)

80 Ra

Installation and Compatibility

Installation Time

1.2 min

Compatibility

Ballast Compatible, Direct Replacement, CCG, IGNITOR

Application

Ideal Environments

- Factory
- Warehouse
- Parking lot
