

# Bar and Plate Intercooler for Performance Vehicles

This bar and plate intercooler enhances engine performance by cooling the intake air. It features a robust core and durable end tanks for optimal heat dissipation.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Cooling Solution

This high-performance intercooler is engineered for racing and performance-oriented vehicles, utilizing advanced bar-and-plate and tube-fin core technology. Designed to optimize intake air temperatures, it significantly enhances engine efficiency and power output in turbocharged and supercharged applications. Its robust construction ensures durability under high-pressure conditions, making it an ideal upgrade for a wide range of performance automotive platforms.

## Compatibility

### Compatible Vehicle Makes

Toyota, Honda, Mitsubishi, BMW, Porsche, VW

## Technical Specifications

Engineered for maximum heat dissipation and durability in high-boost applications.

### Core Construction

Bar and Plate • Tube Fin

### Available Core Sizes (mm)

- 600 x 300 x 76
- 600 x 300 x 100
- 450 x 300 x 76
- 450 x 300 x 100
- 550 x 230 x 76
- 550 x 230 x 65
- 550 x 180 x 65

### Application

Racing, Turbocharged, and Supercharged Vehicles
