

Bathroom Ventilation Fan with Square Grille

This bathroom exhaust fan is designed to provide efficient ventilation in bathrooms and enclosed spaces. It features a clean, white finish and a square grille that blends seamlessly with modern decor while effectively removing moisture and odors.

Product Overview

Efficient Bathroom Ventilation

This square bathroom exhaust fan is engineered for effective moisture and odor removal in enclosed spaces. Featuring a clean white finish and a modern square grille design, it integrates seamlessly into contemporary bathroom interiors. Its durable construction ensures long-lasting reliability, while the compact form factor simplifies installation for both retrofit projects and new construction.
