

Battery Charger

This compact battery charger efficiently charges rechargeable batteries. LED indicators display the charging status and it is compatible with various battery types.

Product Overview

Professional Charging Solution

This compact battery charger is engineered to provide a reliable and efficient power solution for rechargeable batteries. Featuring intuitive LED status indicators and a dedicated charging bay, it ensures safe and consistent performance for your equipment. Its versatile design makes it an ideal choice for powering digital cameras, camcorders, and various other portable electronic devices.

Technical Specifications

Compatible Devices

- Digital Cameras
- Camcorders
- Portable Electronic Devices

Model Identifiers

BC-30 • BC-30B

Key Features

LED Charging Indicators, Compact Design, Dedicated Charging Bay
