Overview

Eco-Friendly Battery-Free Weighing Solution

This innovative digital bathroom scale utilizes an advanced Auto-Power Generation System, eliminating the need for batteries and reducing environmental impact. By converting kinetic energy from a simple button press into power, it offers a sustainable and maintenance-free experience for health-conscious users. The sleek design features a seamless finish with no exposed screws and a decorative four-leaf clover motif symbolizing vitality and good luck.

Key Performance Metrics

Performance Highlights

150 kg

Max Capacity

0.1 kg

Precision

50000 cycles

Tested Operations

Technical Specifications

Weighing Range	8kg to 150kg
Supported Units	kg, lb
Scale Size	320 x 260 x 25mm
Net Weight	1.38 kg

Power & Technology

The U-Power system generates energy with a simple push, tested for over 50,000 operations.

Power Source

Battery-Free • Kinetic Energy • Auto-Power Generation

Environmental Benefits

- Zero battery waste
- Reduced carbon footprint
- No risk of chemical leakage
- Pollution-free operation

Smart Features

Operational Functions

- Auto-off function
- Auto zero resetting
- Low power indication
- Over-load indication

Design & Safety

Design Features

- Seamless connection structure
- No screws exposed
- High precision sensors
- Four-leaf clover decorative pattern

Safety Benefit

Reduces risk of children swallowing batteries
