300 mAh

Battery Capacity

Technical Specifications

Product Dimensions	189 x 123 x 93 mm
Power Source	300mAh Rechargeable Lithium Battery via Micro-B USB
Display Type	High-contrast LCD with intuitive tilt design

Functional Features

Measurement Functions

- Weight measurement
- Integrated kitchen timer
- Tare function for net weight
- Unit conversion (kg/oz/g)

Design & Safety

Design & Safety Benefits

Battery-Free Technology • Chemical Leakage Protection • Child Safe • Eco-Friendly • Arched Stability Design

Physical Construction

- Detachable weighing bowl/tray
- Smooth control knob for selection
- Arched bridge-style foundation for stability
- Compact and ergonomic footprint
