Product Overview

Eco-Friendly Travel Companion

This innovative digital luggage scale eliminates the need for batteries by utilizing advanced auto-power generation technology. Designed for the modern traveler, it helps prevent overweight baggage fees by providing precise weight measurements up to 50kg. Its compact, portable design ensures it fits easily into carry-on luggage, making it an essential tool for stress-free travel.

Technical Specifications

Innovative battery-free technology utilizes a kinetic generator, eliminating the need for replacement batteries.

Maximum Capacity	50 kg
Division	50 g
Scale Dimensions	148 x 33 x 33 mm
Measurement Units	kg, lb

Features

Key Features

- Battery-free operation via kinetic energy
- Auto-power generation system
- Reading lock function
- Shake switch with auto-off
- Low power and overload indication
