Product Overview

An overview of the L1900 battery-free technology and its compact, travel-friendly design.

Eco-Friendly Travel Convenience

This innovative digital luggage scale eliminates the need for batteries by utilizing an advanced auto-power generation system, ensuring it is always ready when you need it. Designed for portability and precision, it helps travelers avoid overweight baggage fees by providing accurate weight measurements up to 50kg. Its compact, ergonomic design fits easily into any carry-on or travel bag, making it an essential tool for stress-free travel.

Technical Specifications

Maximum Capacity

50 kg

Capacity

Division/Accuracy	50 g
Dimensions	148 x 33 x 33mm
Power Source	Automatic power generation (Battery-free)

Features

Key Features

- Battery-free auto-power generation system
- Automatic weight hold function
- Magnetic hook attachment for storage
- Compact and portable design
- High-accuracy sensor
