

Battery Powered Riveting Tool

This battery-powered riveting tool is designed for efficient and reliable rivet installation. The tool features a rechargeable battery, providing cordless convenience and portability for various riveting applications.

Product Overview

Professional Cordless Riveting Solution

The EZ-50RIV is a battery-powered riveting tool engineered for efficient and reliable rivet installation across diverse professional environments. Its robust construction ensures durability, while the ergonomic design facilitates comfortable, extended operation. Powered by a rechargeable battery, this tool offers cordless convenience and portability, making it an ideal choice for manufacturing, construction, and maintenance applications.

Technical Specifications

Power Source	Rechargeable Battery
Portability	Yes

Applications

Suitable Industries	Manufacturing, Construction, Maintenance
