

Beam Pumping Unit

This is a beam pumping unit. It is of good quality.

Product Overview

High-Quality Beam Pumping Unit

This beam pumping unit is designed to provide reliable and efficient performance for industrial applications. It features a robust construction that ensures durability and long-term service life in demanding environments. The unit is engineered to maintain high quality standards, making it a dependable choice for professional buyers seeking effective pumping solutions.

Design & Construction

Canopy Design	Curved glass canopy
Chimney Material	Stainless steel

Features

Control System	Push-button controls
Integrated Lighting	Yes

Filtration & Maintenance

Maintenance

- Easily removable filters
- Washable components for grease capture
- Simplified cleaning process

Filter System	Multi-layer grease filter
---------------	---------------------------

Installation

Mounting Options

Wall Mounted

Performance

Functional Capabilities	Smoke Removal, Grease Capture, Odor Elimination
