

Bearing Housing with Spherical Ball and Seat

Precision-engineered to enhance bearing system performance and longevity. Includes a spherical ball bearing, bearing seat, and ring-shaped housing for optimal support and alignment.

Product Overview

Precision Bearing Assembly

This precision-engineered bearing accessory set is designed to enhance the performance and longevity of bearing systems. The assembly includes a spherical ball bearing, a supporting seat, and a durable ring-shaped housing component. Constructed from high-quality materials, these components provide optimal support, stability, and alignment for a wide range of industrial bearing applications.

Technical Specifications

Included Components

- Spherical ball bearing
- Bearing seat
- Ring-shaped housing

Model ID

V8-225

Key Features

High-quality material, Precision-engineered, Optimal alignment, Enhanced stability
