

Bearing Inner Ring 6x12x10.5 mm

This inner ring is made from high-quality GCr15. It is designed for bearing applications requiring reliable and accurate rotational movement.

Product Overview

Precision Bearing Inner Ring

This precision-engineered inner ring, model IR 6x12x10.5, is designed for demanding bearing applications. Constructed from high-quality chrome steel, it provides a hardened and smooth raceway for rolling elements, ensuring efficient load distribution and reduced friction. Its robust design offers superior wear resistance and dimensional stability, making it an ideal choice for various industrial and mechanical systems requiring reliable rotational movement.

Dimensions

Inner Diameter	6 mm
Outer Diameter	12 mm
Thickness	10.5 mm

Technical Specifications

Seals Type

Open

Weight

0.0051 kg

Weight

Material	Chrome steel
Precision Rating	P0

Logistics

Shipping Options

- Express (DHL/FedEX/UPS/TNT/EMS) for small/urgent orders
- Sea/Air freight for bulk orders

Standard Delivery Time

30 days
