

Beige Tiered Electronic Component with Oval Cut-outs

This is a beige-colored electronic component with a cylindrical, tiered base. It features a rectangular upper portion with distinctive oval cut-out shapes.

Product Overview

Professional Electronic Housing Component

This beige-colored electronic component is designed with a tiered cylindrical base and a distinct upper section featuring oval cut-outs. Constructed from a durable, matte-finish molded plastic, it provides a stable and specialized housing solution for electronic assemblies or connector modules. The integrated ridged design and structural indentations ensure reliable alignment and fit for industrial integration.

Physical Characteristics

Material Finish	Matte finish
Color	Beige
Key Features	Tiered base, Oval cut-outs, Ridged base design, Curved top indentation

Manufacturing Details

Construction Method	Molded plastic
