

# Bellows Globe Valve, API Standard, 300lb

This globe valve is designed for water, steam, and hot oil applications. The valve features a bellows seal to prevent leakage and is rated for 300lb pressure.

## Product Overview

### API Standard Bellows Globe Valve

This API standard bellows globe valve is engineered for industrial applications that demand reliable flow control and secure shutoff. Featuring a robust bellows seal design, it effectively prevents leakage, ensuring enhanced environmental safety and reduced maintenance requirements. It is an ideal solution for critical operations within the chemical processing, oil and gas, and power generation sectors.

## Technical Specifications

Pressure Rating	300lb
Valve Type	Bellows Globe Valve
Standards	API Standard

## Material Composition

### Available Materials

- WCB (Cast Carbon Steel)
- Stainless Steel

## Key Features

### Performance Metrics

**300 lb**
